Re: Request for Time Extension - Landfill Gas Evaluation  
Application for 5-Year Amendment  
Currin Brothers LCID Landfill  
Wake County, North Carolina  
Permit No. 92-N-LCID  
Doc ID No. 16985

Dear Mr. Currin:

The Solid Waste Section received an e-mail request on August 1, 2012 by Mr. Stacy A. Smith, P.E. of Smith & Gardner, Inc., on your behalf, requesting additional time to submit an evaluation for potential landfill gas at the subject facility.

The e-mail by Mr. Smith on August, 1, 2012 stated and requested the following:

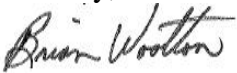

*"Per our discussion this morning, the Currin Brothers wish to remain responsive to the Division's letter of July 2, 2012. As you are aware, we have recently been engaged to assist them in the evaluation of any potential of landfill gas generated from the LCID facility. To that point, we need some more time to further assess this potential. Therefore, Allen and Glenn Currin have agreed to allow S+G on site for this evaluation through such measures as test pits, punch probes, etc. and the real time measurement of gas on the site during the investigation. At this time, we have proposed to perform this work next week. Once completed, we can share results and any options to address this potential and compliance with this operational requirement. Therefore, we believe this can be accomplished in approximately two (2) weeks, but not to exceed 30 days."*

Mr. Glen Currin  
Permit No. 92-N-LCID Landfill  
Time extension request - Gas Monitoring  
Wake County, NC  
Request for Additional Information
